7.- Diana Guerra

8.- Brayan Jácome

9.- Sebastián Lasso

Inspector Team: Team 5 - Crazy Programmers

Inspector Leader: Marcelo Pareja

RUBRIC

TOPIC	EVAL	OBSERVATIONS
1. Definition	9.5/10	The document is well-structured and clearly

		<p>written, earning a score of 9.5 out of 10.</p> <p>The problem definition structure and domain elements goes well.</p> <p>The overview, goals, and conclusion are solid but could be better adding with more technical details and more information to define the project.</p>
2. SRS	9/10	<p>There is a very good definition of what the system must do and how it will interact with it's environment. The requirements are detailed in a very concise and structured way and are easy to trace.</p> <p>The score was 9 out of 10 because only 8 of the 10 requirements were met. The rest of the document is excellent and follows IEEE 830.</p>
3. Class and UC Diagrams	7/10	<p>The diagram was expected to include 10 use cases, but only 8 are present. For that reason, the score was 8 out of 10. However, the overall structure and clarity of the diagram are good</p> <p>there's no multiplicity the score was 7 out of 10</p>
4. ER (10 tables)/CSV (10files)	10/10	<p>This model has 12 main classes with strong relationships. It represents users, products, carts, and shipping, suitable for a tech store system.</p>
5. Mockup	10/10	<p>The mockups are very well made, and their structure is reflected in the final design of the website.</p>
6-7. Clean Code	20/20	<p>The backend code uses clear and consistent variable names, with a logic successfully modularized. The code style is structured, resulting in a clean, organized, and fully functional backend.</p>
8-9-. Functionality	20/20	<p>The system works great and according to the specified requirements.</p>
10. persistence (consistency)	10/10	<p>The data for users and products is very well managed. The only problem is the persistence of the shopping cart.</p>
TOTAL	95.5/100	<p>The project was excellently made, and followed most standards and previously redacted documentation.</p>
