		does not allow uploading or downloading catalogs, and it does not download generated invoices. (-1 point) Usability and experience: Limited due to errors and lack of complete validation. (-1 point)
10. persistence (consistency)	8/10	The project demonstrates consistency in basic functions such as login and editing/deleting suppliers, indicating persistence in its development. However, the lack of comprehensive validations and the presence of bugs in key modules such as products, catalogs, and invoicing affect overall stability, limiting its consistency and reliability.
TOTAL	88/100	Final Decision has been made
